

EA TRIPOD

The EA Tripod turnstile is a robust and reliable model from our tripod series. This model efficiently controls the pedestrian entrance of the busiest areas. The EA Tripod turnstile design, with its choice of housing finishes will perfectly fit a broad variety of buildings and facilities that need pedestrian control. Succinct design and the high quality materials used in manufacture, ensure a smooth and highly reliable operation. In the case of an emergency, the EA Tripod turnstile has a "drop arm" function to allow free movement and is also available with an optional battery backup during power outages.

EA Tripod Twin is also available with double sided tripods.

When power goes OFF both directions are free.

Controlled by:  Access control system  Push button
